

National E-Journals

Journal of the Chemical Society of Pakistan

Journal of the Chemical Society of Pakistan was launched in 1978. This journal covers different research areas in the field of Chemistry. These include; Analytical Chemistry, Applied Chemistry, Biochemistry, Environmental Chemistry, Industrial Chemistry, Inorganic Chemistry, Organic Chemistry and Physical Chemistry. The journal publishes full length articles and Reviews from researchers in academia in addition to featuring comments. Chemical Research presents short, concise and critical articles offering easy-to-read overviews of basic research and applications in all areas of chemistry. Our mission is to develop the highest quality knowledge-based services for the academic, scientific, professional, research and student communities worldwide.

Pakistan Journal of Analytical & Environmental Chemistry

Pakistan Journal of Analytical & Environmental Chemistry is biannual publication by National Centre of Excellence in Analytical Chemistry, University of Sindh, Jamshoro. Journal covers fields of pure and applied analytical chemistry, comprising environmental, material, agricultural chemistry, geochemistry, food chemistry, biotechnology, pharmaceutical and biomedical sciences, development and modification of instruments and techniques with potentials in environmental sciences. The Journal started publishing in year 2000 with the title, 'Pakistan Journal of Analytical Chemistry', later title was changed to its current in year 2006.

RADS Journal of Biological Research and Applied Sciences

RADS Journal of Biological Research and Applied Sciences, welcome original research articles, reviews, short communications in the field of biological, medical and health sciences for publications. The mission of this biannual JBAS (two issues per year) journal is to provide a forum for publishing new findings on scientific issues pertinent to biological sciences.

Pakistan Journal of Pharmaceutical Sciences (PJPS)

Pakistan Journal of Pharmaceutical Sciences (PJPS) is a peer reviewed multi-disciplinary pharmaceutical sciences journal. The PJPS had its origin in 1988 from the Faculty of Pharmacy, University of Karachi as a biannual journal, frequency converted as quarterly in 2005, and now PJPS is being published as bi-monthly from January 2013. PJPS covers Biological, Pharmaceutical and Medicinal Research (Drug Delivery, Pharmacy Management, Molecular Biology, Biochemical, Pharmacology, Pharmacokinetics, Phytochemical, Bio-analytical, Therapeutics, Biotechnology and research on nano particles.

Associations

American Chemical Society

With more than 152,000 members in 140+ countries, we are the premier home of chemistry professionals. Founded in 1876 and chartered by the U.S. Congress, we are the world's largest scientific society. Our mission is to advance the broader

chemistry enterprise and its practitioners for the benefit of Earth and its people. Our vision is to improve people's lives through the transforming power of chemistry.

Royal Society of Chemistry

Chemistry is at the centre of everything you can see, smell, touch and taste. Whether studying the chemistry of life, or developing the advanced science behind modern technology, chemical scientists use their expertise to improve our health, our environment and our daily lives. Collaboration is essential. We connect scientists with each other and society as a whole, so they can do their best work and make discoveries and innovation happen. We publish new research. We develop, recognise and celebrate professional capabilities. We bring people together to spark new ideas and new partnerships. We support teachers to inspire future generations of scientists. And we speak up to influence the people making decisions that affect us all. We are a catalyst for the chemistry that enriches our world.

International Council of Chemical Associations (ICCA)

The Global Chemical Industry PAVES the Way to Sound Chemicals Management and Sustainable Development. ICCA is an association of innovators, visionaries, solutions providers and product stewardship pioneers. Above all, we are optimists. What others see as challenges, we see as opportunities to solve some of the world's biggest problems.

The Chemical Society of Pakistan (CSP)

The Chemical Society of Pakistan (CSP) was established in 1968 and its first extraordinary meeting held on 20th of Jan. 1968 in which aims & objectives of the society were defined and appointment of the office bearers made to start working of the society. It was also decided to write a constitution and get the society registered with the appropriate authorities. The first executive council of the society had Prof. Dr. Khawaja Salah-Ud-Din, Prof. Dr. Riaz-Ur-Rahman and Prof. Dr. M.I. D. Chughtai as President, Secretary and Treasurer respectively. After this initial enthusiasm and activities, the society remained a little bit dormant and, then, its activities revived in late eighties with Prof. Dr. M. A. Kazi, Dr. Aejaz Ahmad Malik and Prof. Dr. G. A. Miana as President, Secretary General and Treasurer of the society respectively. After this the society managed to establish a tradition of holding regular elections after every three years to select the new executive with a few occasions of logically minor delays. Further on the office bearers of the Society included names such as Prof. Dr. Atta-ur-Rahman, Prof. Dr. Zafar H. Zaidi, Prof. Dr. Viqar-uddin and Prof. Dr. Roshan Ahmad as Presidents, Prof. Dr. G. A Miana, Prof. Dr. M. Iqbal Choudhary, and Dr. Din Mohammad as Secretary Generals and Prof. Dr. Noor Ahmad, Prof. Dr. Rasul Jan and Dr. Farnaz Malik as treasurers respectively. The Present executive includes Dr. Din Mohammad, Dr. Khalid M. Khan and Prof. Dr. Jamil Anwar as President, Secretary General and Treasurer of the Society respectively.
